FY23 AUDIT RFP

QUESTIONS AND ANSWERS

1. Per the Audit Rule, the current rotation requirement is 8 years and is subject to change annually. If we have 2 more years of eligibility based on current rule and the RFP is seeking a response for up to 4 years, should our cost response include 4 years for evaluation purposes or just the current 2 years of eligibility? **Please include 4 years for evaluation purposes given the audit rule is subject to change annually.**
2. In RFP section titled, III.C.1.7 of the technical proposal, it states: "Response to specifications, a. Organizational Experience, b. Organizational References, and c. Minimum Qualifications. Can you please clarify if you would like firms to provide the information in RFP section IV. Specifications within each of these categories or provide the information in both sections separately. **Please provide information in both sections as specified in RFP.**
